Amrit Acharya

Full Stack Developer(MERN)

As a MERN developer, I specialize in building web applications using the MERN stack, which includes MongoDB, Express.js, React.js, and Node.js. With extensive skills in developing scalable and robust web applications, I am committed to delivering high-quality solutions that meet the needs of my clients.

I possess strong problem-solving skills and am well-versed in agile methodologies, allowing me to work collaboratively with cross-functional teams and deliver projects on time and within budget. I am constantly keeping up-to-date with the latest technologies and industry trends to ensure that I can provide the best solutions to my clients.

If you are looking for a skilled MERN developer who is passionate about delivering high-quality web applications, please don't hesitate to reach out to me.
